

**“You can realize your cherished dreams
with a Mary Kay business.”**

Cherished dreams come true. Independent National Sales Director Vernella Benjamin started her Mary Kay business to supplement her corporate salary and to pay off some unexpected medical bills. Vernella, who now resides in New York, is from Guyana, a country located in the Northern Amazon Basin of South America.

She was introduced to the Mary Kay opportunity at a skin care class after hearing of the commissions, recognition and flexibility, even though she had a good job as an administrative assistant, she decided that a Mary Kay business was a better choice.

Vernella loves the fact that the Mary Kay opportunity lets individuals advance at their own pace. “When I was a teenager, I remember telling my grandmother I was going to become a millionaire when I grew up, and I was going to travel the world. Instead of laughing at me, she replied by gently asking me when was I going to start,” she recalls. Vernella’s Mary Kay business has made her dreams come true. She was inspired by Mary Kay’s belief in women and her tenacity in starting this Company to give women a chance to become all that God intended them to be while at the same time maintaining their femininity. “When I started my Mary Kay business, I knew nothing about skin care or color products, yet I was able to become a successful entrepreneur because of the great mentors and teachers in this Company. The Mary Kay opportunity proves you can do everything wrong with the right attitude and succeed. I wish more women would take advantage of this opportunity. You can realize your cherished dreams with a Mary Kay business.”

Today, Vernella is more committed to living a life of excellence by putting forth the same effort every day in mentoring other women and helping them to understand what an incredible opportunity this Company has to offer them and how it can enhance the lives of their families. “I am proud to be associated with a company whose philosophy allows women to put God first, family second and career third. If you live those priorities, you cannot fail,” she says. She has grown spiritually and emotionally. In fact, Vernella believes that we are all created with unlimited talents and abilities, and if we help them to flourish, we can live a life of abundance.
